

Usage of the Global SIM card for REX routers (700-879-SIM01)

Version 2 | Status: October 2015

The information contained in this document enables you to activate a new Global SIM card and carry out the corresponding adjustments in the REX router. The required basic knowledge for using the REX routers and the myREX24 portal application is presumed.

The contents of this white paper have been checked to ensure that they match the hardware and software described. However, System Helmholz GmbH can assume no liability for any existing differences, as these cannot be fully ruled out. When using your purchased products, please make sure to use the latest version of the manual, which can be viewed and downloaded on the Internet at www.helmholz.de.

The Global SIM prepaid card acquired through Systeme Helmholz GmbH must be activated prior to usage by the customer or the end user in his/her name. The cards are delivered with a prepaid volume of 15 Euro. The balance can be topped up by the user with various payment methods.

CAUTION

Configuration, execution, and operating errors can interfere with the proper operation of the REX devices and result in personal injury, as well as property or environmental damage. Only adequately qualified personnel may operate the REX devices!

Modem settings in the REX device configuration

Go to the system administration of the REX mobile communications router that is equipped with the Global SIM. The Access Point Name (APN) of the mobile communications provider is: *Public4.m2minternet.com*

The preset entry can be found in the selection menu under: *Germany - easyM2M* (as of FW version: 3.6.0).

The screenshot shows the 'Device Administration' web interface. The 'Internet' tab is selected. Under 'Monitoring Internet Connection', the 'Test-Address' is 8.8.8.8 and 'Test-Interval (s)' is 60. The 'Modem Settings' section is highlighted with a red box and contains the following fields:

Mobile APN (Provider)	Germany - easyM2M
APN	Public4.m2minternet.com
User	dummy
Password	****
SIM Pin	

Below the modem settings, there is a 'Send Email' checkbox under 'After connection established'. The 'VPN Settings' section shows 'VPN Port' set to TCP:1194. At the bottom right, there are 'Save' and 'Cancel' buttons.

Online activation with MyM2M

An account with the service provider MyM2M is required to use the Global SIM cards. An Internet connection with the WWW is presumed.

Activation of the Global SIM card

Enter the following address into the address line (URL) of the browser: **www.MyM2M.com**.

In this example it is assumed that you don't yet have any LOGIN data. You should therefore press the "Activate" button in the start page.

Full cost control
Gives you peace of mind

MyM2M provides you real-time cost control through over both your SIM card as your account. In your account you can manage multiple individual SIM-cards on multiple price plans.

There are no contracts on the SIMs and rate-plans can be changed any month. SIM-cards can be run as individual prepaid cards or as a service similar to normal post-paid.

Activate 
For OEM customers
If your device came with a prepaid SIM card and you have a registration code click here.

Buy 
Go to our shop.
SIM card with 5 euro prepaid balance at a cost of 5 euro* – no connection fee

Control 
Log on to your control panel
Control all the SIMs from one account. Set real-time limits, activate, deactivate, suspend.

On the following page you must indicate that you are a new customer:

1 - Register your SIM 2 - Check your SIM cards 3 - Personal Data 4 - Confirm your registration 5 - Registration finished

Hello! Are you our customer?

No
I am a New Customer

Yes
I am a Customer

In this example, the standard application case is described, in which only one SIM card is to be activated. To this purpose choose the "Single SIM card" field.

1 - Register your SIM 2 - Check your SIM cards 3 - Personal Data 4 - Confirm your registration 5 - Registration finished

Hello! How many SIM cards would you like to activate?

Single SIM card 

Multiple SIM cards 

In the following dialogue, enter the last four digits of the ICCID number of the SIM card and the activation code. You received both together with the Global SIM card. The values entered in the image are only examples and must be replaced by your own.

1 - Register your SIM 2 - Check your SIM cards 3 - Personal Data 4 - Confirm your registration 5 - Registration finished

Single SIM card

(*) ICCID (Last 4 digits): 2711 (*) Activation Code: mr8yqahrbcm

Through this process you will register your SIM card. After you have completed the process, you are able to activate and manage your SIM within your MyM2M selfcare environment.

VALIDATE

The data is accepted with "VALIDATE". Prior to this, the following dialogue must be confirmed with "OK".

Are you sure?

OK Abbrechen

In step "2 - Check your SIM cards", check the *validity* of the card again and confirm with "Yes".

1 - Register your SIM 2 - Check your SIM cards 3 - Personal Data 4 - Confirm your registration 5 - Registration finished

Multiple SIM cards

Purchase

OEM: Systeme Helmholz

Requested SIM cards: 1

Initial Amount: 15 € (15 € per SIM)

SUBMIT

The previously entered data can now be counterchecked once again. Before you can send the data with "SUBMIT", the "Yes" button and the check in the checkbox must be confirmed to accept the MyM2M terms and conditions.

1 - Register your SIM 2 - Check your SIM cards 3 - Personal Data 4 - Confirm your registration 5 - Registration finished

Register in MyM2M - Confirm

General information

First Name: Job Title: Last Name: Number of employees:
Company Name: Contact Phone 1: VAT Number: Contact Phone 2:

Please check your data. Is this correct?

Yes No

Yes, I accept the Terms and Conditions of MyM2M. ASPIDER M2M will not use my data for various marketing purposes; however I do wish that ASPIDER M2M keeps me informed about new products ASPIDER M2M may have to offer to me.

SUBMIT

When you reach the field "5 - Registration finished", the "Welcome to MyM2M - Thanks for confirming your account" message will be sent instantly to the previously entered e-mail address.

1 - Register your SIM 2 - Check your SIM cards 3 - Personal Data 4 - Confirm your registration 5 - Registration finished

Thank you!

Your request has been added in our system.

However, action is still required on your side to activate your account. In a few minutes, you will receive an email confirming the account creation. In order to successfully register, you must click on the link in the email.

If you do not receive an email, please contact us at info@myM2M.com.

Logging in with the new MyM2M access data

The start balance of 15 Euro is an account balance and not an SIM card balance. In the following we will describe how the account balance (or a portion thereof) is allocated to the SIM card to be used and activated.

Low usage
▼

Do you want to receive a notification email when SIM card is activated?

Yes
▼

Are you sure?

Yes
No

The price model can be selected individually here in keeping with user behavior. The following options are available (Status 2015):

Price plan	Monthly recurring charge	Usage price (per MB) Europe	Usage price (per MB) World
Low usage	€1.00	€0.200	€0.45
Medium usage	€2.00	€0.100	€0.45
High usage	€3.00	€0.075	€0.45

Rounding is per kilobyte, starting at the first kilobyte

We recommend to use our low usage product below 10 MB EU/EAA monthly data usage and the high usage product above 40 MB EU/EAA monthly data usage.

The registration and activation of the SIM card is completed by clicking on "Yes".

Activate SIM card✕

Great!

We have received your activation request.
You will receive an email when your SIM card is activated.

If you need immediate assistance please contact us at info@mym2m.com

Close window

Confirmation of the SIM card activation and status

In the "My SIM Cards" menu in the "Activate SIMs" sub-point, the just registered SIM card and its status can be seen as "Pending Activation".

Topping up the MyM2M account balance

NOTE

The balance with mym2m is an account balance and not an SIM card balance. The account balance can be freely distributed to several SIM cards in one customer account.

The balance can be viewed and processed in the "My Balance" menu.

Date	Description	Receipt	Amount	Balance
11/05/2015 13:35:23	Initial Top-up for 891039000004022711	---	-€5	€0
11/05/2015 13:31:29	Initial Balance	---	€5	€5
07/05/2015 11:25:24	Initial Top-up for 891039000004022703	---	-€5	€0
07/05/2015 11:22:03	Initial Balance	---	€5	€5
07/05/2015 08:46:35	Initial Top-up for 891039000004022695	---	-€5	€0
